The Farmers' Alliance, it is stated, desires the abolition of the homestead, or certainly a modification of the law, but the Legislature has not so far shown much mere to bills in that direction. One is now in the hands of a committee.

Some very exaggerated reports appear to have been circulated about the state of affairs at Goldsboro', the narrow escape of labor agents from death. &c. Gentlemen from Wayne country say these statements are unique. The agents left, but they were not threatened with personal violence. Tuesday a telegram was sent by Mayor Peterson, of Goldsboro', to a man in Arkansas, who, it was said, bud employed persons in Wayne to get names of near or laborers, stating that negroes in large numbers were there and inquiring if the Arkansas man intended removing them. There really seems now to be no doubt that an almost direct line of railway is to be constructed from Wilmington via Onslow county and Kluston to Greenville. There it will connect with the road to Scotland Neck, thence to fit lifax. There is a truly remarkable negro at Weldon. He is a telegraph measure, and can neither read nor write. His rare power consists in his ability, mysterious and wonderful, to take a measure to the train, watch the passengers as they alight or remain inside, and invariably give the telegrams to the proper persons without asking any preliminary questions. The lad, whose name is christopher Johnson, cannot explain this singular gift, but does it by intuition, it must be.

An important bill has been introduced in the Legislature to give the entire state the benefits of what is known as the "alternative road law." It will allow to the boards of magistrates and county commissioners the power to levy an assessment or ad viaorem tax of 15 cents on the \$100 property valuation and a poli-tax of 45 cents, this to constitute the county-road fund, it also provides that all able bodied persons can be called on for four days' road work each year, with results for reasted of this duty. There are several points involved. Many persons desire that the negroes shall be given every opportunity to leave the State. There is a large floating and non-working population of the ribe. Other persons sar the negro is a necessity here, and that that race alone can do the furnwark. Some persons very carnestly protest against paying taxes, particularly for schools, for the negroes. Others again say that the only hope for the negro is education. Senate.

The Senate proceedings were devoid of general interest. Among the bills passed was one authorizing the President to place General William S. Rosecrass on the retired list as brigadier-general of the regular army.

The calendar was cleared of individual pension bills, all of them (forty-one in number) being passed in tweive minutes. The consideration of the Texas outrages resolution was resumed at 2:25, and Mr. Coke proceeded with bis argument against the resolution. His speech consisted targely of extracts from the testimeny to prove the bad character of the three principal witnesses, Hackworth, Moore, and Schniz on whose attatements the committee had chiefly relied in making its report. He expressed his astonishment that the committee should have touched "so loathing a creature" as Schutz; and yel, he said, "that monster of immorality, that moral leper," had been put at the head of the Republican ticket for the highest judicial honor in Washingion county. Without firmshing his speech Mr. Coke yielded the floar to Mr. Gibson, who offered resolutions expressing the sorrow of the Sensie at the death of the late Representative Robertson, of Louisians, and proceeded to subgize the life and character of the deceased member.
